Charon Problem Survey:

Have you had any problems with your family?

No different to usual, except I no longer like spending time with my father - I didn't realise that he smelt so bad. It really is disgusting, I can't believe I hadn't noticed it before.

Have you had any problems with your significant others?

I don't have any significant other, thanks for bringing that up.

Have you missed work or lost your job?

No, my job is going better than ever, I'm a food critic and I have to say that I've never found my job more easy. I must've been going to some excellent restaurants recently, because I have had some absolute taste sensations!

Are you feeling happy or sad?

No different to usual really, although all of the amazing food I'm tasting is certainly making me happy.

How many hours sleep have you had in the last week?

Well, I've found it hard to get to sleep actually as I have incredibly noisy neighbours. They must have just moved in as it wasn't nearly as bad before I started this trial.

Anything else to report?

Not really, I feel so alive.
