

Patient Three - Dosage of Charon: x30mg

Name: [REDACTED]

Age: [REDACTED]

Sex: [REDACTED]

Brain Scan under the influence of Charon:

Charon Problem Survey:

Have you had any problems with your family?

No, I actually feel immensely proud to be part of my family.

Have you had any problems with your significant others?

No, no problems at all. Although for some reason they're a little concerned about me though.

Have you missed work or lost your job?

No, I've got a new job in fact. I successfully applied for a job at a blood donation centre. It's fascinating, although my colleagues tell me that despite having the same number of donors as before I started, we are exporting less blood. I guess some must be going missing.

Are you feeling happy or sad?

No different to before the trial.

How many hours sleep have you had in the last week?

I'm still having around 9 hours sleep, although I tend to sleep during the day now, as I find daylight a little unsettling.

Anything else to report?

I feel reinvigorated as a result of this trial. I'm very excited about tomorrow night, when I'm having my partner for dinner.
